Skills

- Front-End (HTML/CSS/JS, ES6, React, Redux, Webpack, Chai, Enzyme)
- Back-End (Node, Express, MongoDB/Mongoose, Postgres)
- Tooling (Linux Command Line, Git CLI, Vim)
- People (written/oral communication, active listening, conflict resolution)

Work Experience

Front End Developer at Randstad USA *(Best Buy Corporate: Jul 2016 - present)*

- Converted our codebase to ES6, setting the standard for future code.
- Decoupled our codebase from another by creating a separate build process.
- Set unit testing standards: coverage doubled to 80%.
- Trained new teammates on our tech stack and taught them domain knowledge.
- Tech Stack: React/Redux, ES6, Karma, Enzyme, Grunt, Webpack, LESS/CSS (BEM)

Research Assistant at BYU *(Provo, UT: Apr 2014 - Jun 2016)*

- Maintain Team Populism website (<https://populism.byu.edu>)
- Coauthor a scholarly article on the consequences of Populism for Democracy
- Conducted large-N statistical analyses of populism with Stata scripts

LDS Missionary at Rosario, Argentina Mission *(Aug 2010 - Aug 2012)*

- Learned fluent conversational and written Spanish
- Applied planning, accountability, team work, and leadership principles

Education

Brigham Young University *(2009-2010, 2012-2015)*

- International Relations major, 3.89 GPA (Fall 2015)
- Math Skills - 24 Econ credits, Intro to Proofs, Calculus I

Hobby Coding

- Front End Web Development Certification (February 9, 2016) through Free Code Camp
- Reading: Functional Javascript, Javascript the Good Parts, Michael Hartl RoR book
- Courses: 12+ Codecademy courses, Ruby Koans, Stanford Online CS 101
