Skills

- Front-End (HTML/CSS/JS, ES6, React/Redux, Jest, Enzyme, Chai, Webpack)
- Tooling (Git CLI, Linux CLI, BASH, Node, npm/yarn, Docker, Vim)
- People (inquisitive listener, persistence, written/oral communication)

Work Experience

Front End Developer at Randstad USA (*Best Buy Corporate: Jul 2016 - present*)

- Trained new teammates on the tech stack and taught them domain knowledge.
- Reviewed teammates code and gave constructive, actionable feedback.
- Collaborated with business, QA, UX and developers to ensure quality, on-time products
- Testing: converted Karma/Mocha to Jest and doubled coverage to 80%.
- Converted our codebase to ES6, setting the standard for future code.
- Decoupled our codebase from another by creating a separate build process.
- Tech Stack: React/Redux, ES6, LESS/CSS (BEM), Jest, Jenkins, Grunt, Webpack

Research Assistant at BYU (*Provo, UT: Apr 2014 - Jun 2016*)

- Maintain Team Populism website (<https://populism.byu.edu>)
- Coauthored a scholarly article draft on the consequences of Populism for Democracy
- Conducted large-N statistical analyses of populism with Stata scripts

Education

Brigham Young University (*2009-2010, 2012-2015*)

- B.A. International Relations, 3.89 GPA with 30+ Math and Economics credits

Hobby Coding

- Front End Web Development Certification (February 9, 2016) through Free Code Camp
- Apps: ChoicEats Recipe sharing (github.com/choiceats/), Library management (Allredlib)
- Courses: 12+ Codecademy courses, Ruby Koans, Stanford Online CS 101
- Reading: Functional Javascript, Javascript the Good Parts, Michael Hartl RoR book

Service

LDS Missionary at Rosario, Argentina Mission (*Aug 2010 - Aug 2012*)

- Learned fluent conversational and written Spanish
- Applied planning, accountability, team work, and leadership principles

Eagle Scout (2009)
